grounds, historical places,
and many more.....

Our Community in the States

Mülkiye Alumni have been living in the United States for decades. In 2006, they started getting together to challenge the spirit of Mülkiye by having periodic reunions and celebrating our anniversary on December 4th every year in different community hub zones in particular.

Today we have more than 250 members living in 24 states. Most of our members are permanent residents in the country, while 15% of them are academicians and 13% civil servants working for diplomatic missions or obtaining their post graduate degrees.

MÜLKIYE USA

Summer Vacation & Career Planning Programs

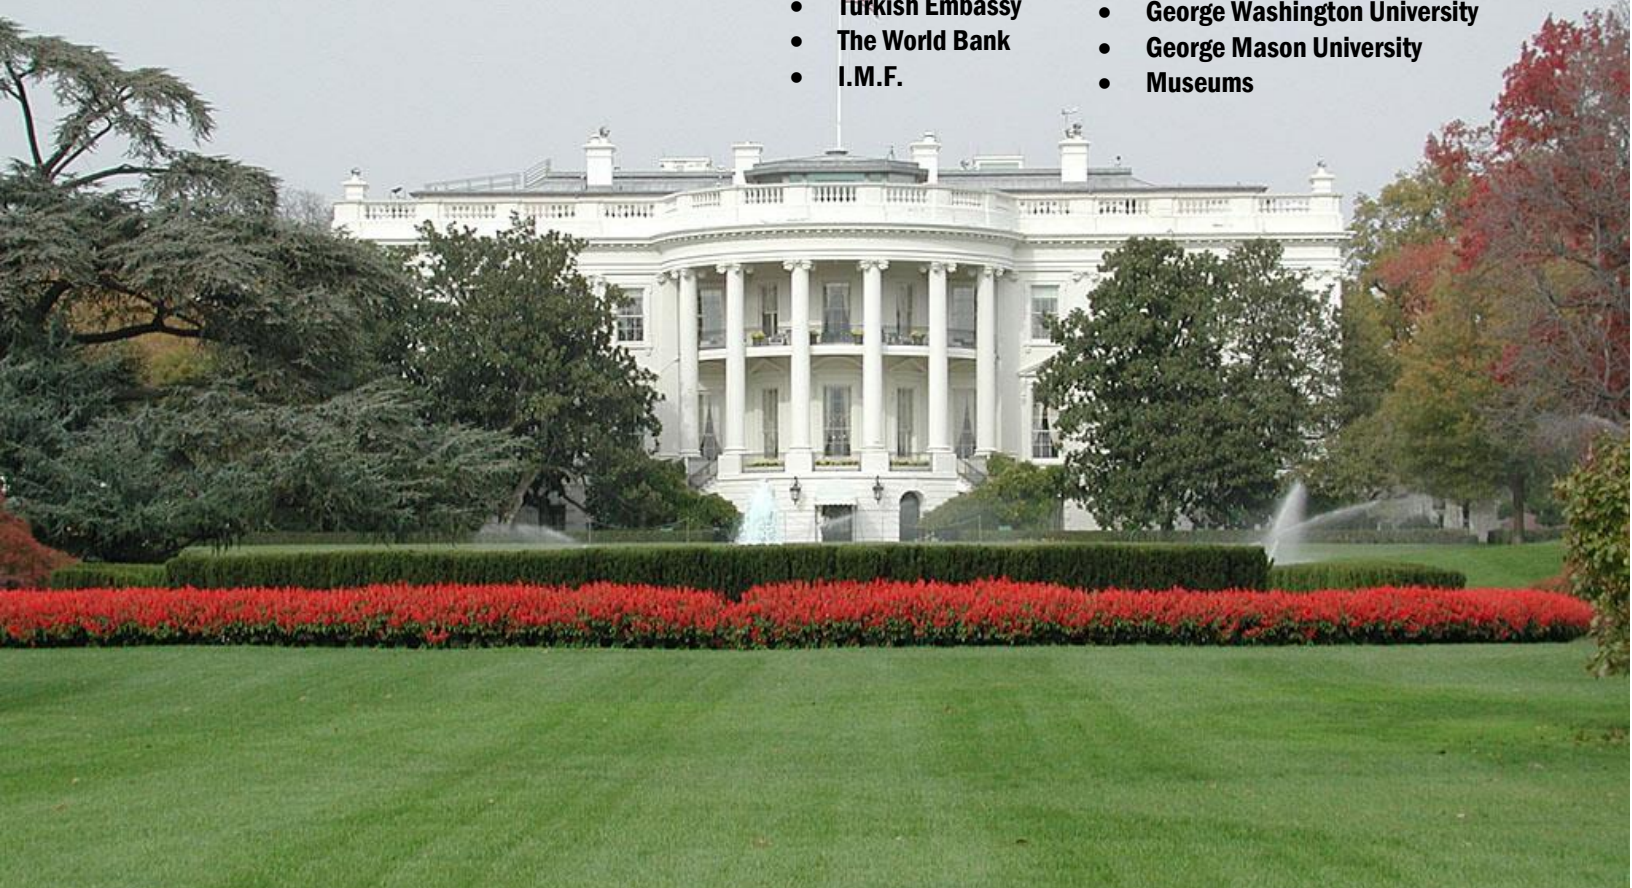

As Mülkiye Alumni, we do believe the importance of discovering the world through culturally immersive educational travel. Through experiential learning they gain new perspectives, develop important 21st century skills and become true global citizens. And as one of the oldest schools of Turkey, our faculty students deserve the best education and career planning opportunities than any other school in the country.

Therefore, in 2014 we decided to assist our students in discovering the largest economy in the world with its governing system, colleges, and universities as well as the largest global development organizations and Turkish diplomatic missions. And of course, you also need a vacation like any other young person in the world.

Washington, DC

Why New York?

There are countless reasons to come to New York as a student. As a center of many industries, including finance, international trade, technology, real estate, media, and entertainment, tourism, and manufacturing, the New York City metropolitan region is one of the most important economic regions in the world; in 2013, the MSA produced a gross metropolitan product (GMP) of nearly \$1.39 trillion, while in 2012, the CSA had a GMP of over \$1.55 trillion, both ranking first nationally by a wide margin and behind the GDP of only twelve nations and eleven nations, respectively. In 2012, the New York metropolitan area was also home to seven of the 25 wealthiest counties in the United States by median household income, according to the American Community Survey. According to Forbes, in 2014, the New York City metropolitan area was home to eight of the top ten zip codes in the United States by median housing price, with six in Manhattan alone.

New York, NY

International Center of Higher Education

The area's many colleges and universities make Boston an international center of higher education and medicine, and the city is considered to be a world leader in innovation for a variety of reasons. Boston's economic base also includes finance, professional and business services, and government activities. Cambridge is home to two of the world's most prominent universities, Harvard University and the Massachusetts Institute of Technology.

Summer Vacation & Understanding the American Culture

Global travel awakens the senses—and mind—to different cultures and experiences. From visiting the 18th century historical place of Williamsburg to staffing the climbing wall, pool, and other outdoor activities to meet your needs, unforgettable memories become priceless souvenirs. Experience a life-changing journey in just a few simple steps.
